With reference to your application for Ph.D. /M. Phil admission you are requested to submit your proposed research proposal in the department of Biosciences by **13-9-2019**.

Date of presentation of proposal will be intimated later.

A list of Ph. D. and M. Phil. guides with their subject specializations are attached, you may contact them to discuss your research proposal, and mention any three guides of your choice in order of preference, however allotment of research guide is done by Research Advisory Committee (RAC).

Your research proposal should be prepared as per the following guidelines. Over all proposal should not be more than 4-5 typed pages (Approx.1500-2000 words).

Introduction: It should include your idea of what you want to study and why you want to study.

Review of literature: Review the information what is already known in this field and your critical assessment on the missing links of information if any and justify the contribution of your proposed research work in this context.

Aims and objectives: Clearly specify your objectives of the proposed work in bulleted format

Methodology: Only briefly the methods adopted to achieve your aims and objectives

Significance and Importance: Clearly give the significance, importance and applicability of your expected research findings.

If you are working in any institution a no objection certificate to be submitted along with your proposal.

If you are allotted a guide from any of the affiliated colleges you are required to produce a certificate from the head of the institution that the required research facilities will be provided for the research or from the institution where the candidate intends to work during the Ph.D. / M. Phil. programme.

If the candidate selects the guide from Department of Biotechnology, VNSGU, it will be on self-finance mode, (Rs.20,000 per semester).
