(a) Read the following paragraph carefully and answer the questions that follow:
After a light breakfast of few biscuits and half a slab of chocolate I left my tent at around 5.30 a.m. Ang Dorjee was standing outside. No one else was around. Ang Dorjee was going to climb without oxygen. But because of this his feet would get very cold. He thus wanted to avoid long exposure at heights and a night at the summit camp. He had therefore to either get to the peak and back to the South Col the same day or abandon the attempt.
He was keen to start immediately and asked if I would like to go with him going to the top from the South Col and back in a day would be strenuous and tough and there was a risk of Ang Dorjee turning back if his feet got too cold.
I, however, had full confidence in Ang Dorjee as well as in my stamina and climbing capability. Besides, no one else was ready to move at that time.

Questions:
(1) How was Ang Dorjee going to climb the peak?  
(2) What would happen if Ang Dorjee climbed without Oxygen?
