Course: 202: CURRICULUM STUDIES

Course Code	202
Course Title	CURRICULUM STUDIES
Credit	4
Teaching per Week	5 Hrs
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)
Effective From	June 2016

Purpose of Course	The purpose of the course is to make the student capable of implementing the concepts, methods, and tools of curriculum studies and learn their implementation in Knowledge-Based Systems Course Objective To acquaint students with concepts of curriculum formation and its applications.								
Course Objective	To make students acquainted with concepts of curriculum studies and its applications.								
Course Outcomes	<p>the students will :</p> <p>CO1. Define meaning of curriculum Transaction & Identify the components of curriculum. Describe the various principles of curriculum development & Explain various determinants of curriculum.</p> <p>CO2. Describe and analyze various approaches to curriculum development & Explain and compare various types of curriculum and the meaning of curriculum development & State major issues to be addressed through curriculum</p> <p>CO2. Describe various modes of curriculum development & Explain various considerations for curriculum development.</p> <p>CO4. Describe various methods/media for transaction & Discuss approaches of curriculum transaction.</p> <p>CO5. Explain role of ICT in curriculum Transaction & Define process of curriculum evaluation Differentiate between formative and summative evaluation Explain various tools used in curriculum evaluation.</p> <p>CO6. Identify the various stages of project evaluation & Describe issues in curriculum evaluation</p>

	CO5								
	CO6								
Pre-requisite	Basics of Mathematics, Data Structures								
Course content	<p>UNIT – I</p> <p>NATURE, PRINCIPLES AND DETERMINANTS OF CURRICULUM</p> <p>1. Meaning and concept of curriculum</p> <p>2. Curriculum as a body of organized knowledge, inert and live curriculum.</p> <p>3. Components of Curriculum: Objectives, content, transaction mode and evaluation</p> <p>4. Base/Foundations of Curriculum : Philosophical Bases (National, democratic), Sociological basis (socio cultural reconstruction), Psychological Bases (learner’s needs and interests). International Norms (bench marking). Axiological Issues: Ethics</p>								

- and aesthetic branch. Its originand scope.
5. Determinants of Curriculum : Objectives-Values enshrined in the Constitution such as social justice, equality and secularism, Explosion of knowledge- Information vs. Knowledge, Nurturing creativity, Social forces, revolutionary change in the society: ICT, change in value system, Localization, Privatization and Globalization.
Learner: growth and development
 6. Approaches to curriculum : Subject centered, Community centere, LearnerCentered and interdisciplinary curriculum

**UNI
T –
II**

CURRICULUM DEVELOPMENT

1. Principles of Curriculumdevelopment: Principles of integration, Relevance, flexibility, quality, continuity and plurality; Conservative (Preservation of Culture etc.), Forward looking principle
2. Models of curriculum development: Hilda Taba 1962 model, Nicholls and Nicholls -1972 model, Willes and Bondi-1989 model, Goodlod’s model, Need assessment model, Vocational/ Training model
3. Current Trends in Curriculum Development: Autonomy and Curriculum Development, Curriculum for Inclusion, Curriculum for International and Multicultural Education

**UNI
T –
III**

CURRICULUM TRANSACTION

1. Curriculum transaction: Meaning and concept, Minimum requirement for curriculum transaction (Duration, in-take, eligibility of students, content, qualification of teaching staff, infrastructure facilities, institutional facilities, classroom climate)
2. Relationship between Curriculum Transaction and Instruction: Instructional Design and Instructional System, Use of various methods & media in transaction with their strength and limitation, Role of Communication in Curriculum Transaction and its element, Enhancing curriculum transaction
3. Certain issues with curriculum and its transaction: Designing integrated and interdisciplinary learning experiences, Integration of learning experience related to work experience, sensitivity to gender parity, peace oriented values, health and needs of children with disabilities, arts and India’s heritage of crafts, Infusion of environment related knowledge and concerns in all subjects and levels, Centralized vs. decentralized curriculum, Diversity among teachers in their competence, Participation of functionary and beneficiaries in curriculum development, Learning to draw upon resources other than text books, Problem of curriculum load

	<p style="text-align: center;">UNI T – IV</p> <p style="text-align: center;">EVALUATION AND RESEARCH IN CURRICULUM CONSTRUCTION</p> <ol style="list-style-type: none"> 1. Curriculum evaluation: Meaning, Concept, Nature, Purpose & Objective, Types of Curriculum evaluation, Ideas for Effectiveness, Criteria and Importance 2. Curriculum evaluation Models : Tyler’s Model, Stakes’ Model, Scriven’s Model, Krikpatrick’s Model 3. Approaches to curriculum evaluation : Academic and Competency Based 4. Tools and Techniques of Curriculum evaluation: Observation, classroom interaction (with teacher and in peer group, group work), Oral: pretesting, diagnostic questions, Interview: consulting users of curriculum, An opinionnaire: Maintaining daily by the children as well as teachers, Project work: Peer evaluation maintaining portfolio of the work and their presentation.

Teaching	Classwork, Discussion, Self-Study, Seminars and/or Assignment

Methodology	
Evaluation Method	30% Internal assessment based on class attendance, participation, class test, quiz, assignment, seminar, internal examination, etc. 70% External based on semester end University examination

Course: 204: Advanced Research Methods

Course Code	204							
Course Title	Advanced Research Methods							
Credit	4							
Teaching per Week	5 Hrs							
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)							
Effective From	June 2016							
Purpose of Course	The purpose of the course is to make the student capable of implementing the concepts, methods, and tools of Advanced Research and learn their implementation in Knowledge-Based Systems Course Objective To acquaint students with concepts of Advanced Research Methods and its applications.							
Course Objective	To make students acquainted with concepts of Artificial Intelligence and its applications.							
Course Outcomes	<p>the students will :</p> <p>CO1 Explain the scope and application of educational statistics.Acquire himself with statistical theories and its application in Educational Research.</p> <p>CO2 Appropriate the role of parametric and non-parametric statistics in various types of educational research.</p> <p>CO3 Describe the importance of educational statistics and its relationship with of educational and the concepts and methods used in Statistical analysis of test scores.</p> <p>CO4 Explain the concept of qualitative and quantitative data and the concept of Inferential and Descriptive Statistics.</p> <p>CO5 Test specific hypotheses about populations based on their sample data.Use appropriate procedures to analyze qualitative data</p> <p>CO6 Interpret results obtained through different techniques of analysis of datainsight into research embedded instruction.Report the research work is accordance with the current trends and procedure of report writing</p>

Pre-requisite	Basics of Mathematics and research
Course content	<p>UNIT-I ADVANCED RESEARCH</p> <ol style="list-style-type: none"> 1. Research ethics & it's Important. 2. Digging data from Survey Archives, Written Records - Recording Content Analysis of Documents/text books and Case studies 3. Concept and uses of following methods: <ol style="list-style-type: none"> (i) Ex-Post-Facto; (ii) Laboratory experiment; (iii) Field Studies and Field Experiment (iv) Ethnographic and Documentary Analysis. 4. Research Report writing. <p>UNIT-II Introduction to Statistics in Educational Research- I</p> <ol style="list-style-type: none"> 1. Use of statistics for managing data 2. Nature and Types of educational data 3. Organization and tabulation of data. 4. Frequency distributions 5. Graphic Representation of data - Histogram, Frequency Polygon, Frequency curve, Ogives, Pie diagram and Bar Diagram- Advantages and uses of Graphic representation of data 6. Measures of Relative Position- Meaning, Concept and Uses of Percentiles, Quartiles and Percentile Rank, z-scores <p>UNIT-III Introduction to Statistics in Educational Research- II</p> <ol style="list-style-type: none"> 1. Measures of Central Tendency and Dispersion- Concept and Uses of Measures of central tendency, Concept and Uses of Measures of Dispersion 2. Measures of Relationship: Concept and Uses of Measures of: Correlation, item analysis, Estimation of reliability and validity. 3. Regression and Prediction: Concept of Simple Linear Regression and Regression Equations – Standard Error of Estimate as accuracy of prediction. 4. Normal Probability Distributions Characteristics, Uses (Only Concept), Skewness & Kurtosis (Only Concept). <p>UNIT-IV Inferential Analysis of Quantitative & QUALITATIVE DATA</p> <ol style="list-style-type: none"> 1. Null-Hypothesis: Concept & Testing. 2. Significance of Statistics : Concept of Standard Error, Estimating Confidence Limits of Mean (Small and Large Sample). 3. Parametric test: Concept and uses of t-test, Analysis of Variance and Covariance. 4. Testing of null hypothesis and non parametric methods: Concept & Uses of Chi-Square test, Sign test, Median Test, 5. Factor Analysis: Concept & it's Importance

	Qualitative data Analysis: Concept and types

Course: 205: LIBRARY SKILLS

Course Code	205
Course Title	Library skills
Credit	1
Teaching per Week	2
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)
Effective From	June 2016
Purpose of Course	The purpose of the course is to develop library skill of the students.

Course Objective	<ul style="list-style-type: none"> To develop knowledge and understanding of the Library skills and its resources. To understand the importance of library skills. To develop the habit of reading and reviewing of Educational resources. To get acquainted with the role of library in Education and Research. To get acquainted with the Digital supporting research institutions in Education. 																																																
Course Outcomes	<p>CO1: Explain the students the concept of Library skills and its types & resources.</p> <p>CO2 :Explain students the understanding importance of library in M.Ed. Curriculum.</p> <p>CO3: Explain students To get acquainted with the habit of reading and reviewing of Educational resources</p> <p>CO4 : Explain students to get aware with the role of library in Education and Research.</p> <p>CO5 : Explain students to get familiar the role of Digital supporting research institutions in Education.</p>

Course: 206: Communication Skills

Course Code	206							
Course Title	Communication Skills							
Credit	1							
Teaching per Week	2 Hrs							
Minimum weeks per Semester	15 (Including Class work, Examination, Preparation, Holidays etc.)							
Effective From	June 2016							
The purpose of the course	To make students aware about concepts of communication, strategies for effective communication and its applications in school and classroom level.							
Course Objective	To enable students to meet high professional expertise in teaching with the help of much developed communication skills.							
Course Outcomes	<p>Students will be able</p> <p>CO1 To develop an understanding of the concept of communication, its components, communication process and its importance in teaching profession.</p> <p>CO2 To develop effective oral presentation skills for effective teaching-learning process.</p> <p>CO3 To judge and develop theirs and others' LSRW skills.</p> <p>CO4 To enable them for job applying, making CV, resume and cover letters, and prepare them for job interviews.</p> <p>CO5 To develop skills to perform certain formal tasks related to teaching profession such as application writing, report writing of all kinds, memorandum writing etc.</p>

M. Ed. Semester -3

Course: 301 Community Services and Reporting

Course Code	301
Course Title	Community Services and Reporting
Credit	1
Teaching per Week	2 Hrs
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)
Effective From	June 2016
Purpose of Course	The purpose of the course is to make the student aware about their role of community service.

Course Objective	To make students acquainted with the ideas and skills for the community service.							
Course Outcomes	<p>The students will:</p> <p>CO1 Identify problems of the community. CO2 Understand the reason behind the problems faced by the community. CO3 Know how they can contribute to solve the problems of the community. CO4 Serve the community by doing the community service in the field.</p>							
Mapping between COs with PSOs		PSO1	PSO2	PSO3	PSO4	PSO5	PSO6	PSO7
	CO1							
	CO2							
	CO3							
	CO4							
Pre-requisite	Basics of Sociology, reflection, education and thinking							
Course Content	<p>The Students identifies the area of community service</p> <p>The Students prepare planning for the community service</p> <p>The Students go into the field for at least 32 hours and perform as per their planning during the inter semester break</p> <p>The Students prepare a detailed report with proof and photographs of their community service and submit it for the evaluation.</p>							
Reference Books	Refer library books and online resources							
Teaching Methodology	Self-Study, Group and individual field-based work							
Evaluation Methods	100% Internal assessment based on the report submitted by the student.							

Course: 302 Sociology of Education

Course Code	302
Course Title	Sociology of Education
Credit	4
Teaching per Week	5 Hrs
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)
Effective From	June 2016
Purpose of Course	The purpose of the course is to make the student understand the nature and functions of sociology as well as sociology of education and make use of principles of sociology for studying educational phenomenon and do logical analysis, interpretation and synthesis of concepts, propositions and sociological assumptions.

Course Objective	To make students acquainted with concepts, methods, postulates, assumptions of sociology as well as sociology of education and its applications.							
Course Outcomes	<p>The students will:</p> <p>CO1 Understand the social context of education CO2 Appreciate the relationship between education and society CO3 Understand the role of education in a changing social context CO4 Decipher the nature and scope of sociological inquiry in education CO5 Appreciate the role of education in the context of national development CO6 Provide an understanding of certain current problems and issues in the social context</p>

Evaluation Methods	30% Internal assessment based on class attendance, participation, assignment, internal examination, etc. 70% External based on semester end University examination

Course: 305 Internship – Related to Specialization

Course Code	305
Course Title	Internship – Related to Specialization
Credit	4
Teaching per Week	Students do internship in school for 4 weeks
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)

Effective From	June 2017							
Purpose of Course	The purpose of the course is to provide real field experience of the future profession.							
Course Objective	To make students acquainted with the knowledge, understandings and skills for future profession.							
Course Outcomes	<p>The students will:</p> <p>CO1 Acquire knowledge and skills required for the future profession.</p> <p>CO2 Work as a professional in an educational institute.</p>							
Mapping between COs with PSOs		PSO1	PSO2	PSO3	PSO4	PSO5	PSO6	PSO7
	CO1							
	CO2							
Pre-requisite	Basics of education and selected field of specialization.							
Course Content	<p>1. Each internship has duration of 04 Weeks</p> <p>2. Should be Design with the previous concern, guidance and collaboration of the Host Institute about suggesting aspects for study/work/focus.</p> <p>3. Faculty and Mentor Teacher of the Host institution should be consulted in advance.</p> <p>4. It should be seen as a mentor component by a Faculty and a Mentor Teacher from the Host Institution to guide a group of 3 - 5 students.</p> <p>5. Orientation for students and Mentor Teacher and faculty should be organized before organizing the Internship.</p>							
Reference Books	Students refer library and online resources							
Teaching Methodology	Field Based Work (Internship)							
Evaluation Methods	100% External assessment by the mentor of the host institution on the bases of attendance, work performed by the student in the institute and professional skills developed by the student.							

Course: 306 Research Paper Writing Workshop and Presentation

Course Code	306
Course Title	Research Paper Writing Workshop and Presentation
Credit	1
Teaching per Week	2 Hrs
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)
Effective From	June 2016

Purpose of Course	The purpose of the course is to make the student understand the concept, component and procedure of research paper and acquire skills to prepare and present research paper.							
Course Objective	To make students acquainted with the skills of preparing and presenting research paper.							
Course Outcomes	The students will: CO1 Understand the concept of research paper and components of a research paper. CO2 Develop the skills to prepare and present research paper.							
Mapping between COs with PSOs		PSO1	PSO2	PSO3	PSO4	PSO5	PSO6	PSO7
	CO1							
	CO2							
Pre-requisite	Basics of education, academic writing and educational research.							
Course Content	A workshop for research paper writing Students will prepare a research paper under the guidance of a faculty. Students will present their paper in front of peers and a panel of faculty.							
Reference Books	Online/offline resources for educational research.							
Teaching Methodology	To be carried out under close mentorship/guidance of a Faculty member .Daily regular guidance cum tutorial period is arranged in time-table.							
Evaluation Methods	100% Internal assessment based on the research paper prepared and its presentation							

Course: 307 Preparation of Reflective report of any two educational articles published in newspaper related with specialization

Course Code	307
Course Title	Preparation of Reflective report of any two educational articles published in newspaper related with specialization
Credit	1
Teaching per Week	2 Hrs
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)
Effective From	June 2016
Purpose of Course	The purpose of the course is to develop the skill of reflection on the current educational articles published in the newspaper.

Course Objective	To make students acquainted with the skill of reflection and academic writing .							
Course Outcomes	The students will: CO1 Review the newspaper articles. CO2 Prepare a reflective report.							
Mapping between COs with PSOs		PSO1	PSO2	PSO3	PSO4	PSO5	PSO6	PSO7
	CO1							
	CO2							
Pre-requisite	Basics of education and academic writing.							
Course Content	The Students identifies two newspaper articles related with the specialization they choose. Students will prepare a reflective report by reviewing the newspaper article under the guidance of a faculty.							
Reference Books	Newspapers							
Teaching Methodology	To be carried out under close mentorship/guidance of a Faculty member .Daily regular guidance cum tutorial period is arranged in time-table.							
Evaluation Methods	100% Internal assessment based on the reflective report submitted by the student.							

Course: 308 Dissertation Guidance : Draft of Fourth Chapter

Course Code	308
Course Title	Dissertation Guidance : Draft of Fourth Chapter
Credit	1
Teaching per Week	2 Hrs
Minimum weeks per Semester	15 (Including Classwork, examination, preparation, holidays etc.)
Effective From	June 2016
Purpose of Course	The purpose of the course is to make students capable for analyse and interpret the data collected for their research work.
Course Objective	To make students acquainted with the skill data analysis and interpretation.
Course Outcomes	The students will: CO1 Analyse the data using appropriate statistical method. CO2 Make interpretation of the analysed data

	CO3 Write the fourth chapter of their research report (M.Ed. Dissertation)							
Mapping between COs with PSOs		PSO1	PSO2	PSO3	PSO4	PSO5	PSO6	PSO7

Pre-requisite
 Basic concept of Education, Components of teaching-learning process , Psychological theories and principles, Bloom Taxonomy, Knowledge of fundamentals of Technology and basic technological Skills

Course Content

UNIT – I CONCEPT OF PEDAGOGY

1. Pedagogy: Meaning, Scope and Objective
2. Child centered pedagogy: Development of Concept, Understanding, Logical Reasoning, Critical Thinking and Problem solving.
3. Devices of teaching: Meaning, Importance & Types. (Teaching-Fixed)

UNIT – II TECHNIQUES OF PEDAGOGY

1. Techniques of Teaching: Lecture, Questioning, Project, Team Teaching, Workshop, Panel Discussion & Assignment
2. Memory Level (Herbetian Model), Understanding Level (Morrison Teaching Model) & Reflective level (Biggs and Hunt teaching Model)
3. Use of Blogs, YouTube, Digital Encyclopedia & Ted talks

	<p>UNIT – III ASSESSMENT IN TEACHING-LEARNING</p> <ol style="list-style-type: none"> 1. Assessment-History, concept, Difference between – Measurement, Evaluation & Assessment 2. Importance of Assessment 3. Formative and Summative Assessment 4. Assessment for Learning: Concept & Principles <p>UNIT – IV TOOLS & TECHNIQUES OF ASSESSMENT</p> <ol style="list-style-type: none"> 1. Characteristics of Good Assessment Tools 2. Assessment Tools: Teacher made Test, Diagnostic Test, Checklist, Rubric and Portfolio 3. Assessment Techniques: Writing, Oral, Observing, Projects, Interview, Continues & Comprehensive Assessment

Pre-requisite	Basics of Information and Communication Technologies aspects and knowledge of how to Enhance Education with ICT.							
Course Content	<p>UNIT – I Information and Communication Technologies – an Introduction</p> <ol style="list-style-type: none"> 1. Concept, Need and Importance of ICT in Education. 2. Paradigm Shift due to ICT: Teacher in a digital era- Changing role and competencies 3. Application of ICT in Teaching-learning, Assessment, Professional Development, School Management. 4. Instructional Design : Concept, characteristics, Models (ADDIE Model, Dick and Carey Model, Gagne’s Model) 5. Communication: Concept, Process, Types and Barriers <p>UNIT – II Computer and Internet Fundamentals</p> <ol style="list-style-type: none"> 1. Introduction to a personal computer: Functional overview of a computer (Personal Computer/Laptop/Tablet) and its parts and functions, Operating System (Windows and Linux – Ubuntu) 2. Internet: Concept, Use and Importance in Education (Except history). 3. Brief introduction of concepts related with internet: www, modem, Browser, Hyperlink, website, homepage, E-mail, chat, http, FTP, Web 2.0 4. Search techniques for effective use of search engines to find text, images, audio, video; Exploring Online Encyclopedia (Encyclopedia Britannica, Wikipedia) 5. Criteria for selecting ICT Resources – Accuracy, Credibility, Coverage, Objectivity , Appropriateness, Cost and Copyrights 6. Misuse of internet, Legal and ethical issues (Copyright, Plagiarism, Hacking, Netiquette, Phishing, Software privacy) <p>UNIT – III Enhancing Education with ICT-I</p> <ol style="list-style-type: none"> 1. Concept and characteristics of Web Based Instruction (WBI) ; Modes of WBI (Meaning, Characteristics, Applications, Advantages, Disadvantages) – Synchronous, Asynchronous, Blended. 2. Course Management Systems : Concept, Features and Application in Education 							

	<ol style="list-style-type: none"> 3. M-Learning (Mobile Learning): Meaning, Characteristics and Application 4. MOOC (Massive Open Online Course) : Meaning, types, Characteristics and Application 5. Concept, merit and demerits of CAI and CAL <p>UNIT – IV Enhancing Education with ICT-II</p> <ol style="list-style-type: none"> 1. Flipped Classroom, Virtual Classroom: Concept, Merits, Demerits and Application 2. Open Educational Resources (OER): concept, merit, demerits, creative commons licenses 3. Social Media: Concept, effective and safe use of following social media <ul style="list-style-type: none"> • Social Networking • Blog • Micro blog • Wiki • instant messaging apps • video sharing services 4. Cloud Computing: Concept, merits, demerits, application in education

Teaching Methodology	The course would be taught through participatory approaches including Lecture, Symposium, Workshop, Panel, Group discussion; self study, seminar, Case Study Experiments, Problem solving Film Show.
Evaluation Methods	30% Internal assessment based on class attendance, participation, practicum, assignment, seminar, internal examination, etc. 70% External based on semester end University examination

Course 404: TE-FE INTERNSHIP- Related to Specialization

Course Code	404
Course Title	INTERNSHIP-Related to Specialization
Credit	Practicum credit 4
Teaching per Week	Students do internship in B.Ed. colleges for 4 weeks
Minimum weeks per Semester	4 weeks
Effective From	June 2016
Purpose of Course	The purpose of the course is to develop academic, administrative and professional skill development as a teacher educator through real-world practices.
Course Objective	To learn and develop practical skills of teaching profession, to develop understanding of inner working of an organization, develop skills to solve immediate problems of the profession; and observe and learn ethics at work.
Course Outcomes	<p>CO1 Understand and practice administrative activities of teacher education institutions.</p> <p>CO2 Learn the ways of maintaining records.</p> <p>CO3 Learn and develop the process of curriculum designing and development.</p> <p>CO4 Understand training processes and evaluation in teacher</p>

	<p>education institutes.</p> <p>CO5 Observe, analyze and reflect on the work and practices of teacher education institutes.</p> <p>CO6 Observe and practice innovative teaching practices and evaluation practices in teacher education institutes.</p> <p>CO7 Develop ethics to work in teacher education institutes and develop skills and values of a good teacher educator.</p>
