Information Technology Policy

SECURITY POLICY FOR USER

1. Purpose: The policy aims at providing secure and acceptable use of client systems.
2. Scope: This policy is applicable to the employees, Students and Guest users of Veer Narmad South Gujarat University for handling of unclassified information.
3. Policy
 - 3.1 Acceptable Use of Client Systems
 - 3.1.1 User shall be responsible for the activities carried out on the client system, using the network connection / accounts assigned to him / her.
 - 3.1.2 User's network access shall be subjected to monitoring / filtering for malicious / unauthorized activities.
 - 3.1.3 For any administrative activities on the client system, user shall adhere to the Security settings recommended.
 - 3.1.4 User shall use account with limited privileges on client system and shall not use administrator privileges.
 - 3.1.5 Backup of important files shall be taken by the user at regular intervals.
 - 3.1.6 System / media containing official information shall be physically secured.
 - 3.1.7 User shall not leave system unattended. The user shall lock out his / her system before leaving the system. Additionally, system idle timeout shall be configured on the client system.
 - 3.1.8 Maintenance or rectification of faults in the client system shall be carried out under close supervision of the user.
 - 3.1.9 User shall check that the system time is as per Indian Standard Time (IST). Any variation shall be reported to the System Administrator / Network Security Administrator.
 - 3.1.10 User shall not engage in any of the following activities:
 - 3.1.10.1 Circumventing security measures
 - 3.1.10.2 Unauthorized access to Systems / Data / Programs
 - 3.1.10.3 Harassing other users by accessing or modifying their data / resources on the system
 - 3.1.10.4 Creating, accessing, executing, downloading, distributing, storing or displaying any form of anti-national, offensive, defamatory, discriminatory, malicious or pornographic material
 - 3.1.10.5 Making copies of software / data for unauthorized use
 - 3.1.10.6 Impersonation
 - 3.1.10.7 Phishing
 - 3.1.10.8 Social engineering
 - 3.1.10.9 Unauthorized use of software license
 - 3.1.10.10 Providing official e-mail address on Internet mail groups/bulletin boards for personal use
 - 3.1.10.11 Any activity that is in violation of the University Services (Conduct) rules
 - 3.1.11 User shall report security incident to the System Administrator / Network Security Administrator.
 - 3.1.12 User shall ensure that unauthorized Peer to Peer file sharing software is not installed.
 - 3.1.13 User shall ensure that the system is configured as follows:
 - 3.1.13.1 User shall not share client system with anyone, by default. However, if necessary for any specific reason (such as client system used in shift-duty), following shall be ensured:
 - 3.1.13.1.1 Explicit approval of competent / designated authority is taken for each client system and every user accessing it.
 - 3.1.13.1.2 Every user on the shared client system has a separate account.

3.1.13.1.3 File / Folder access permission is limited to meet functional requirement of the user.

3.1.13.2 User shall not share hard disk or folders with anyone, by default. However, if necessary, only the required folders shall be shared with specific user.

3.1.13.3 By default all interfaces on the client system are disabled and only those interfaces which are required are enabled. For configuration user shall contact the System Administrator.

3.2 Virus and Malicious Code (adware, spyware, malware)

3.2.1 User shall ensure that client system is configured with the authorized anti-virus software.

3.2.2 User shall ensure that anti-virus software and the virus pattern files are up-to-date.

3.2.3 User shall ensure that anti-virus scan is configured to run at regular intervals.

3.2.4 In case a virus does not get cleaned, incident shall be reported to the System Administrator Network Security Administrator.

3.3 Hardware, Operating System and Application Software

3.3.1 User shall use only the software / hardware which are authorized by the University/Department.

3.3.2 The following activities shall be carried out by the System Administrator. However, the User shall ensure the following:

3.3.2.1 Operating System and other software is installed using authorized source / Original Equipment Manufacturer (OEM) media with valid license.

3.3.2.2 While installing the Operating System and other software packages, only the required utilities are installed / enabled.

3.3.2.3 Latest available service packs, patches and drivers are installed.

3.3.2.4 Booting from removable media is disabled.

3.3.2.5 Auto-run on all removable drives is disabled

3.3.3 User shall allow the installation of service packs and patches provided by the patch server.

3.4 E-mail Use

3.4.1 Only the E-mail account provided by the University shall be used for official communication.

3.4.2 Official E-mail shall not be forwarded to personal E-mail account.

3.4.3 E-mail password shall not be shared even for official purpose.

3.4.4 User shall not attempt any unauthorized use of E-mail services, such as:

3.4.4.1 Distribution of messages anonymously

3.4.4.2 Misusing other user's E-mail address

3.4.4.3 Using a false identity

3.4.4.4 Sending messages to harass or intimidate others

3.4.5 Password used for online forms / services / registrations / subscriptions shall not be the same as the password of official E-mail account.

3.4.5 Email account of students after pass out to be used as alumni student account.

3.5 Password Security

3.5.1 Selection of password shall be done as per the industry standard password management guidelines.

3.5.2 The following activities shall be carried out by the System Administrator. However, the User shall ensure the following:

3.5.2.1 Passwords are enabled on BIOS, System login and Screensaver levels

3.5.2.2 Auto-logout feature on the client system is disabled.

3.5.2.3 User account is locked after a predefined number of failed login attempts.

3.5.3 User shall not share or reveal passwords.

3.5.4 Passwords shall be changed at regular intervals.

3.5.5 If a password is suspected to have been disclosed / compromised, it shall be changed

Immediately and a security incident shall be reported to the System Administrator / Network Security Administrator.

3.6 Portable Storage Media

- 3.6.1 User shall use officially issued portable storage media only.
- 3.6.2 User shall return the portable storage media, if it is no longer a functional requirement or in case of damage / malfunctioning.
- 3.6.3 User shall ensure that portable storage media used is free from virus.
- 3.6.4 User shall ensure that the execution of software from portable storage media is not done.

3.7 Network Access Policy applicable for the user

- 3.7.1 User shall take prior approval from the competent authority to connect the client system to the network.
- 3.7.2 A client system authorized to connect to one network shall not connect to any other network.
- 3.7.3 For wireless connectivity, user shall ensure the following:
 - 3.7.3.1 By default, the wireless interfaces are disabled.
 - 3.7.3.2 Client system does not connect to wireless networks / devices without approval from the competent authority.
 - 3.7.3.3 If permitted, the wireless interface of the client system is enabled to connect to authorized wireless network only.

3.8 Client System Log

- 3.8.1 User having administrative privilege shall not disable / delete the audit trails / logs on the client system.

4. Review

This Security Policy shall be reviewed at the time of any change in the IT environment or once every year, whichever is earlier. The review shall be carried out for assessing the following:

- 4.1 Impact on the risk profile due to, but not limited to, the changes in the deployed technology / network security architecture, regulatory and / or legal requirements.
- 4.2 The effectiveness of the security controls specified in the policy. As a result of the review, the existing policy may be updated or modified.

5. Enforcement

Violation of this policy shall amount to misconduct under University rules.

Password Policy

1. Purpose: The purpose of this policy is to establish a standard for creation of strong passwords, the protection of those passwords, and the frequency of change of the passwords.

2. Scope: The scope of this policy includes all end-users and personnel who have or are responsible for an account (or any form of access that supports or requires a password) on any system/service in the NIC domain. These include personnel with their designated desktop systems. The scope also includes designers and developers of individual applications.

3. Policy

3.1 Policy Statements

- 3.1.1 For users having accounts for accessing systems/services:
 - 3.1.1.1 Users shall be responsible for all activity performed with their personal user IDs. Users shall not permit others to perform any activity with their user IDs or perform any activity with IDs belonging to other users.
 - 3.1.1.2 All user-level passwords (e.g., email, web, desktop computer, etc.) shall be changed periodically (at least once every three months). Users shall not be able to reuse previous passwords.
 - 3.1.1.3 Password shall be enforced to be of a minimum length and comprising of mix of alphabets, numbers and characters.
 - 3.1.1.4 Passwords shall not be stored in readable form in batch files, automatic logon scripts, Internet browsers or related data communication software, in computers without access control, or in any other location where unauthorized persons might discover or use them.
 - 3.1.1.5 All access codes including user ID passwords, network passwords, PINs etc. shall not be shared with anyone, including personal assistants or secretaries. These shall be treated as sensitive, confidential information.
 - 3.1.1.6 All PINs (Personal Identification Numbers), wherever applicable, shall be constructed with the same rules that apply to fixed passwords.
 - 3.1.1.7 Passwords must not be communicated through email messages or other forms of electronic communication such as phone to anyone.
 - 3.1.1.8 Passwords shall not be revealed on questionnaires or security forms.
 - 3.1.1.9 Passwords of personal accounts should not be revealed to the controlling officer or any co-worker even while on vacation unless permitted to do so by designated authority.
 - 3.1.1.10 The same password shall not be used for each of the systems/applications to which a user has been granted access e.g. a separate password to be used for a Windows account and an UNIX account should be selected.
 - 3.1.1.11 The "Remember Password" feature of applications shall not be used.
 - 3.1.1.12 Users shall refuse all offers by software to place a cookie on their computer such that they can automatically log on the next time that they visit a particular Internet site.
 - 3.1.1.13 First time login to systems/services with administrator created passwords, should force changing of password by the user.
 - 3.1.1.14 If the password is shared with support personnel for resolving problems relating to any service, it shall be changed immediately after the support session.
 - 3.1.1.15 The password shall be changed immediately if the password is suspected of being disclosed, or known to have been disclosed to an unauthorized party.

3.1.2 For designers/developers of applications/sites

- 3.1.2.1 No password shall be traveling in clear text; the hashed form of the password should be used. To get around the possibility of replay of the hashed password, it shall be used along with a randomization parameter.
- 3.1.2.2 The backend database shall store hash of the individual passwords and never passwords in readable form.
- 3.1.2.3 Password shall be enforced to be of a minimum length and comprising of mix of alphabets, numbers and characters.
- 3.1.2.4 Users shall be required to change their passwords periodically and not be able to reuse previous passwords.
- 3.1.2.5 For Password Change Control, both the old and new passwords are required to be given whenever a password change is required.

3.2 Policy for constructing a password

All user-level and system-level passwords must conform to the following general guidelines described below:

- 3.2.1 The password shall contain more than eight characters.
- 3.2.2 The password shall not be a word found in a dictionary (English or foreign).
- 3.2.3 The password shall not be a derivative of the user ID, e.g. <username>123.
- 3.2.4 The password shall not be a slang, dialect, jargon etc.
- 3.2.5 The password shall not be a common usage word such as names of family, pets, friends, co-workers, fantasy characters, etc.
- 3.2.6 The password shall not be based on computer terms and names, commands, sites, companies, hardware, software.
- 3.2.7 The password shall not be based on birthdays and other personal information such as addresses and phone numbers.
- 3.2.8 The password shall not be a word or number pattern like aaabbb, qwerty, zyxwvuts, 123321, etc. or any of the above spelled backwards.
- 3.2.9 The password shall not be any of the above preceded or followed by a digit (e.g., secret1, 1secret).
- 3.2.10 The password shall be a combination of upper and lower case characters (e.g. a-z, A-Z), digits (e.g. 0-9) and punctuation characters as well and other characters (e.g. !@#%&*()_+|~=\{}|:";'<>?,./).
- 3.2.11 Passwords shall not be such that they combine a set of characters that do not change with a set of characters that predictably change.

3.3 Suggestions for choosing passwords

Passwords may be chosen such that they are difficult-to-guess yet easy-to-remember. Methods such as the following may be employed:

- 3.3.1 String together several words to form a pass-phrase as a password.
- 3.3.2 Transform a regular word according to a specific method e.g. making every other letter a number reflecting its position in the word.
- 3.3.3 Combine punctuation and/or numbers with a regular word.
- 3.3.4 Create acronyms from words in a song, a poem, or any other known sequence of words.
- 3.3.5 Bump characters in a word a certain number of letters up or down the alphabet.
- 3.3.6 Shift a word up, down, left or right one row on the keyboard.

4. Responsibilities:

- 4.1 All individual users having accounts for accessing systems/services in the University domain, and system/network administrators of University servers/ network equipment shall ensure

the implementation of this policy.

4.2 All designers/developers responsible for site/application development shall ensure the incorporation of this policy in the authentication modules, registration modules, password change modules or any other similar modules in their applications.

5. Compliance

- 5.1 Personnel authorized as Internal Audit shall periodically review the adequacy of such controls and their compliance.
- 5.2 Personnel authorized as Application Audit shall check respective applications for password complexity and password policy incorporation.

VNSGU Policy on format of e-mail Address

1. Introduction:

VEER NARMAD SOUTH GUJARAT UNIVERSITY (VNSGU) has a network providing a host of services over the Internet. One of the critical services being provided is the e-mail service to its officers, office bearers, employees, and students. The growth of VNSGU e-mail services is growing fast and the time has come for stream lining of the e-mail services by adopting a single virtual e-mail server for the all stakeholders. VNSGU is in the process of rationalizing the e-mail addresses offered to its users. The present Version 1.0 of the "VNSGU policy on e-mail address" is a step in that direction.

2. Applicability: This policy is applicable to all the users of the VNSGU e-mail services.

3. e-mail Address Policy: The major problem that is to be resolved in giving the e-mail addresses to the users is to ensure the address resolution when multiple similar names occur, which is a common occurrence. This problem is found to occur in everywhere and therefore there are some proven name resolution methods that have been used by many of the service providers. There are two major naming methods that are used in India. First pattern, the "surname" or the "family name" followed by initials of given name is used to address a person. In and the second is the "given name" followed by "surname" or "family name" is used for addressing a person. In some cases, one gets to see the usage of a large number of initials attached to a given name. Therefore, we need to take the differences in the naming mechanism to be reflected in the e-mail addresses so that the address resolution problem is properly taken care of.

4. e-mail domain Resolution: The policy refers to both the e-mail domains, which shall be virtual e-mail domains, and the e-mail addresses.

4.1 e-mail addresses: The VNSGU e-mail addresses shall have a single domain by default "vnsgu.ac.in" and no sub-names. That is all the e-mail addresses that shall be operative over the VNSGU e-mail service shall have the same unified address part as "@vnsgu.ac.in". Therefore any e-mail address given to any one in VNSGU shall have the same unified address part "@vnsgu.ac.in"

4.2 e-mail Addresses: The address will have at most two parts. That is the address would look like "aaaa.bbbb@vnsgu.ac.in" or "pq@vnsgu.ac.in".

For Students: The first part "aaaa" can be either a given name or a family name with initials and the second part "bbb" will be comprising of combination of college/institute id and student's information.

For official of University: The first part "aaaa" is designation of e-mail holder and the second part "bbb" will be the section or department.

For Teachers of University: The only part "aaaa" is combination of initials followed by "surname" or "family name" of the e-mail id holder.

For Teachers of Colleges Affiliated with University: The first part "aaaa" is designation of e-mail holder and the second part "bbb" will be the college id.

Officers of University : The only part "aaaa" is designation of e-mail holder.

Below are given a few cases that may cause address resolution problems and the proposed method of allocating e-mail addresses is presented. A few examples are given below to illustrate the procedure that would be adopted in allocating the e-mail addresses:

4.2.1. Sachin Ramesh Tendulkar (Student)

Name of Student : Sachin Ramesh Tendulkar
(Given name, Middle Name, Sur Name)

Name of College : MTB Arts College

College Code : MTBS

Year of Admission : 2014

Date of Birth : 05 January 1996

Here, possible e-mail addresses would be (in order of priority) :

sachintendulkar.mtbs14@vnsgu.ac.in (first name last name.collegecode admissionyear@domain name)

tendulkarsachin.mtbs14@vnsgu.ac.in
