Best Practices Adopted

Computer Science and Information Technology being fast changing areas, the syllabus of all the courses offered by the department is closely monitored and it is made sure that it is as per the changing needs of the industry. And for this the department updates the syllabus, and sometimes changes the subjects too, every year cyclically. The faculty takes extra efforts and care to update themselves with new subjects and technologies whenever needed and teach the subjects as per the industry needs.

Input from the faculty regarding teaching-learning-evaluation is taken during regular staff meeting. The new ideas are discussed and if found good then they are tried to be incorporated in teaching-learning-evaluation. Faculty also give inputs regarding the syllabus of the subjects they teach and/or any new subject they find good for the course. And if the ideas are found suitable then the changes in the present syllabus and/or the introduction of new subject is discussed and proposed and then after proper procedure it is implemented.

Couple of people from industry are included in the board of studies of Computer Science & Information Technology. They give their input regarding the syllabus. Alumni also give their feedback regarding the same. These inputs are discussed at length and the department tries to incorporate changes that are possible.

The faculties have adopted all methods of teaching in the class. They are black board teaching, teaching through presentations, teaching through live demonstration from their laptops, teaching through live demonstration in computer laboratories, teaching through discussions, Video Lectures.
