

TRAINING & PLACEMENT BROCHURE

Department of Biotechnology,
Veer Narmad South Gujarat University,
Surat – 395 007, Gujarat. INDIA.

FROM THE DESK OF HONORABLE VICE CHANCELLOR

DR. K. N. CHAVDA

Education is the foundation for personal growth and societal progress. It equips individuals with the skills needed to navigate an ever-evolving world while driving a nation's economic stability. Higher education, especially, plays a crucial role in creating skilled professionals who lead innovation. At Veer Narmad South Gujarat University, we are committed to providing quality education aligned with the National Education Policy (NEP) 2020, ensuring our students are prepared for a globalized future. The Department of Biotechnology fosters research, innovation, and critical thinking, empowering students to become leaders in fields such as genetics, microbiology, bioinformatics, and environmental sciences.

The dedicated faculty and staff at the Department of Biotechnology work tirelessly to nurture young minds, fostering research, innovation, and critical thinking to meet the complex demands of modern science. As the world faces global challenges like pandemics and environmental issues, our department remains focused on producing solutions that benefit both humanity and the ecosystem. I am confident that our students will continue to excel, contributing to scientific advancements that improve lives and reinforce India's leadership in research and technology. I extend my best wishes to the students and faculty of the Department of Biotechnology in their pursuit of academic and research excellence.

FROM THE DESK OF RESPECTED REGISTRAR

DR. R. C. GADHVI

University education encompasses teaching, research, and social service activities at both the graduate and postgraduate levels. Veer Narmad South Gujarat University's campus offers a variety of resources to students, allowing them to pursue extracurricular activities outside of their normal course studies.

Our university has taken significant steps to effect qualitative and quantitative reforms in the sphere of higher education. The university boasts great infrastructure facilities, including hostels, a sports complex, a central library with internet access, a convention centre, an Amphitheatre and laboratories. The university placement cell assists students in finding careers in their fields of study. My blessings are always with all of the students that strive so hard to build a bright future.

FROM THE DESK OF FORMER PROF. & HEAD OF BIOSCIENCE DEPARTMENT

PROF. DR. MINOO PARABIA

The word "technology" traditionally brings to mind machines, electricity, transportation, computers, and more. However, biotechnology—arguably one of the oldest technologies—has long been practiced in agriculture, cooking, and herbal medicine. In 2006, Veer Narmad South Gujarat University ushered in a new era by establishing the Department of Biotechnology, which inspired other institutions in South Gujarat to follow suit. This biologically rich region, with its open coastline, fertile plains, orchards, forests, and perennial rivers, provided the perfect setting for such an initiative. The department started as a five-year integrated course, addressing the dual needs of advancing research and combating industrial pollution through bioproducts.

From humble beginnings, the department has grown steadily, supported by an enthusiastic team of teachers, administrators, and staff working in harmony. It has achieved remarkable milestones, producing NET/SET scholars, entrepreneurs, and graduates excelling in industries and business. I invite the citizens of Surat to support this exceptional department and wish it continued success in the future.

FROM THE DESK OF HEAD OF THE DEPARTMENT

DR. GAURAV SHAH

As Veer Narmad South Gujarat University celebrates its 60th year, it is a proud moment to reflect on the journey of the Biotechnology Program, initiated on campus in 2006. We are deeply committed to our students' holistic development, fostering responsibility for sustainable living and nurturing entrepreneurial skills to contribute to national growth and job creation. In today's rapidly advancing world, globalization, urbanization, and industrialization have led to overexploitation of natural resources, causing environmental degradation, unsafe water, poor living conditions, and epidemics like COVID-19. Diminishing food security is another growing concern amid rapid population growth. Biotechnology offers transformative solutions to these global challenges, positioning our country as a leader in genomics, bioinformatics, agriculture, biodiversity conservation, biofuels, and bioinstrumentation. With its promising future, biotechnology stands as a beacon of hope for society.

Our department recognizes the need for skilled, innovative young minds. We aim to shape future leaders, scientists, and socially conscious citizens equipped to navigate a challenging and opportunity-filled world. Our programs instil confidence, a desire for excellence, and provide global exposure, empowering students to exceed expectations in a rapidly evolving world.

ABOUT THE DEPARTMENT OF BIOTECHNOLOGY

M. Sc. Biotechnology Course was started in 2006 with an aim to cater to the need of higher education in the emerging field of Biotechnology. We strive to achieve excellence and relevance in this always growing area of application related to biological sciences. Department was established in 2015. The department follows the co-education pattern and vigorously engages in teaching, research and co-curricular activities to boost up and build the career of the students. The department has a young as well as experienced, energetic and highly qualified faculty working as a team to give the best quality education to the students. The department has many laboratories which are well equipped with all necessary instruments. We have an excellent library with rich collection of textbooks, e-books, reference books, journals, bulletins, and CDs. Computer and internet facility is also available for the students.

All the students have an equal right to use these facilities available at the department. Apart from the primary thrust area of academics, the department is vigorously involved in research and teachers have completed various research projects and contributed several research publications to the scientific community. Our students have proved their academic potential with excellent results in the examination and good employment rate. Moreover, the immigration of many students to overseas for higher education and employment, as well as many foreign students currently studying in the department, indicates our global acceptance.

ACADEMIC PROGRAMS

Programs

Eligibility / Admission

M. Sc. (Biotechnology)
(5 Yrs. Integrated)
(Honors 4 Yrs.)

Higher Secondary or Equivalent Exam under Science stream
Merit Based.

Graduation in Biotechnology/Biochemistry/Microbiology Program
Merit Based.

B. Sc. (Microbiology) – 3 Yrs.
(Honors 4 Yrs.)

Higher Secondary or Equivalent Exam under Science stream
Merit Based.

Doctor of Philosophy
(Ph. D.)

The admission notification for Ph. D. is advertised every year in the
University website.

For further details visit www.vnsgu.ac.in

OUR CORE PRINCIPLES

VALUES

Academic Excellence, Sustainability, Inclusivity, Community Engagement, Empowerment, Innovation, and Scientific advancement.

MISSION

Empowering the mankind with the means of biotechnology to prosper itself.

VISION

Creating the means to achieve the newer heights in the field of biological sciences for the welfare of the society.

OBJECTIVES

To impart scientific and technological knowledge with a modern approach, empowering young learners to recognize how the synergy of science and technology can enhance personal growth and lead to success and achievement.

PROUD PLACEMENTS

Department of Biotechnology,
Veer Narmad South Gujarat University,
Surat

Subject - **MSI BEST DEPARTMENT AWARD - 2024**

Dear Sir/Ma'am,
We are happy to inform you that you have been selected for the Best Department Award by the Microbiologists Society, India at the State Level.

The awards shall be conferred at MBPFGSC Conference in Vadod Gujarat (Jan 11-12, 2025) or the National Conference & 3rd Annual Meet of Microbiologists Society at Dehradun (Feb 4-6, 2025), kindly confirm your presence and convenient venue to receive the award.

Yours sincerely

Dr. Sagarika Devi
(Chairman, MSI Awards)
Microbiologists Society India

Dr. Arvind Deshmukh
President
Microbiologists Society, India

Committees

Convener
Dr. Gaurav Shah

Co-convener
Dr. Preeti Sharma

Organizing Secretary
Dr. Ambika Arktkar

Core Organizing Committee

Dr. Rekha Gadhvi (Chairperson)

- ✓ Dr. Gayatri Chaudhari
- ✓ Dr. Mihir Sarang
- ✓ Mr. Piyanka Rai
- ✓ Mr. Shaileshbhai Patel
- ✓ Ms. Rekha Gansai
- ✓ Ms. Vanbhava Patel
- ✓ Ms. Sneha Shobhavat
- ✓ Ms. Ami Shah

Facilitation Committee

Mrs. Tansy Tamakwala (Chairperson)

- ✓ Mr. Milan Patel
- ✓ Ms. Prachi Patel
- ✓ Ms. Dipshi Manoriya
- ✓ Ms. Navyasa Patel
- ✓ Mr. Sumitbhai Patel
- ✓ Mr. Karanbhai Surode
- ✓ Ms. Shani Kumbhava

Secretary
Dr. Mayuri Rathod (Chairperson)

- ✓ Dr. Meeta Mehta
- ✓ Dr. Ruchi Desai
- ✓ Mr. Saddam Musani
- ✓ Mr. Parth Patel
- ✓ Mr. Dhruv Tandel
- ✓ Ms. Jagisha Patel
- ✓ Mr. Nishal Patel
- ✓ Ms. Sejal Pat
- ✓ Ms. Kharibho Shah

Event Execution Committee

Dr. Chirag Prajapati (Chairman)

- ✓ Ms. Urveta Patel
- ✓ Ms. Mehal Patel
- ✓ Mr. Niteshbhai Patel
- ✓ Mr. Jayeshbhai Patel
- ✓ Mr. Dharmeshbhai Solanki
- ✓ Mr. Sumitbhai Vasava
- ✓ Ms. Nithya Patel
- ✓ Ms. Bhavini Kansara
