

# VEER NARMAD SOUTH GUJARAT UNIVERSITY, SURAT

## PROSPECTUS

### **Admission to Undergraduate (UG) Fourth-Year Programs: UG Degree (Honours) & UG Degree (Honours with Research)**

(In alignment with NEP 2020 & UGC Curriculum and Credit Framework)

**Academic Year 2026-2027**

## Shaping the Future: A Paradigm Shift in Higher Education

It is a matter of immense institutional pride to present the official Implementation Mechanism and Prospectus for the 4th-Year Undergraduate (Honours and Honours with Research) progression at Veer Narmad South Gujarat University. This document represents far more than a procedural update; it marks a defining milestone in our enduring commitment to academic excellence and student empowerment. As we navigate a rapidly evolving global landscape characterized by unprecedented technological advancements and complex socio-economic challenges, it is imperative that higher education transforms. We must decisively transition from a rigid, conventional structural model into a dynamic, highly responsive, and fundamentally student-centric journey.

The National Education Policy (NEP) 2020 has provided us with the definitive blueprint for this transformation. Embracing its core philosophy, our university is systematically dismantling traditional academic silos to foster an environment where interdisciplinary learning, critical thinking, and holistic development take center stage. The introduction of the specialized 4th-year tracks is a direct manifestation of this vision.

Particularly through the introduction of the 'Honours with Research' pathway, we are consciously cultivating a vibrant, rigorous research culture at the foundational undergraduate level. Historically, intensive research has been reserved for postgraduate and doctoral studies. By democratizing access to research methodologies, dissertation work, and direct faculty mentorship earlier in their academic careers, we are equipping our students with the analytical tools required to solve real-world problems. Our ultimate objective is to prepare our students to transition seamlessly from being mere consumers of existing information to becoming active creators of new, impactful knowledge.

Furthermore, this progressive framework recognizes that the modern student's journey is rarely linear. The unprecedented flexibility offered through the Multiple Entry and Exit System (MEES), supported by the digital infrastructure of the Academic Bank of Credits (ABC), ensures that our educational ecosystem adapts to the diverse life circumstances of the student, rather than forcing the student to adapt to a rigid institutional timeline. This fail-safe mechanism protects hard-earned academic credits, ensuring that the pursuit of higher learning remains an accessible, lifelong endeavor.

This implementation is not an isolated academic exercise; it is deeply interwoven with the strategic milestones of our Institutional Development Plan 2025–2030. By aligning our undergraduate programs with the highest national standards, we are ensuring that the graduates of Veer Narmad South Gujarat University are not only globally competitive but are also adequately prepared to be the driving force behind the vision of Viksit Bharat@2047.

As you stand at this crucial academic juncture, I urge you to carefully review the pathways detailed in this prospectus. Whether you choose to enter the professional arena with a well-rounded three-year degree or opt to push the boundaries of your discipline in the fourth year, the university stands fully committed to supporting your aspirations. I wish you all the very best as you take this significant step toward sustained academic and professional excellence.

**Dr. Kishorsinh N. Chavda**

**Vice Chancellor**

## A Seamless Transition to Advanced Learning

Welcome to a truly defining moment in your academic journey at Veer Narmad South Gujarat University.

The transition from a standard three-year undergraduate program to an advanced fourth-year degree is not merely a continuation of your coursework; it represents a profound and deliberate commitment to your personal, intellectual, and professional growth. In today's competitive and knowledge-driven global economy, foundational learning must be complemented by specialized expertise. By considering this advanced phase of your education, you are actively choosing to deepen your disciplinary mastery, refine your analytical capabilities, and equip yourself with the advanced competencies required to excel in leadership roles or rigorous academic research.

We understand that making definitive decisions about your academic future can be both exhilarating and daunting. To ensure this pivotal transition is as seamless, transparent, and student-friendly as possible, the university administration has completely modernized our progression mechanisms. We have successfully digitized the entire transition process through our state-of-the-art, integrated **ERP Student Decision Gateway**. This centralized digital platform is designed to empower you. It places the power of choice directly in your hands, eliminating bureaucratic hurdles and allowing you to chart your academic course with absolute clarity. Whether you choose to proudly claim your 3-year Bachelor's degree to immediately enter the workforce, or you opt to seamlessly transition into the 4th-Year Honours or Honours with Research tracks, your decision is executed efficiently and transparently.

Furthermore, we recognize that ambitious academic pursuits must be supported by a highly flexible and secure framework. The modern university must adapt to the evolving circumstances of its students. To that end, your entire academic progression is securely anchored by the **Academic Bank of Credits (ABC)**. Every credit you have meticulously earned is permanently banked and digitally protected.

Alongside this digital security, we have implemented robust, student-centric academic safeguards to ensure you can pursue advanced studies without fear of penalization. Our **'Exit Policy'** stands as a testament to this flexibility. Should your personal or professional circumstances change while pursuing your 4th year, this policy guarantees that your hard-earned academic standing is never compromised. You retain the absolute right to 3-year degree credentials fully protected.

The academic framework at our university has been re-engineered not just to meet the standards of the National Education Policy, but to genuinely serve your best interests. The academic faculties, department heads, and administrative staff across all our affiliated colleges are fully equipped and eager to support you through this transition phase.

I strongly encourage you to read through this prospectus carefully, discuss your options with your mentors, and utilize the ERP Decision Gateway thoughtfully. You are standing on the threshold of advanced learning, and we are here to ensure your path forward is secure and filled with potential.

Embark on this next chapter with absolute confidence. I wish you a highly successful, enriching, and transformative academic year ahead.

**Dr. R.C. Gadhvi**

**Registrar**

## Introduction:

Upon the successful completion of the 6th semester, academic results will be universally declared for all students enrolled in the standard three-year Undergraduate program. This final result documentation will explicitly state the Cumulative Grade Point Average (CGPA) accumulated over the credits earned during the six semesters. These earned credits are in strict alignment with the National Credit Framework (NCrF) Level 5.5 standards.

## Universal Degree Award and Academic Pathways

Following the official declaration of results, all students will formally exit the three-year program and become eligible to fill out the university convocation form as soon as the portal opens. All the students who pass their standard three-year Bachelor's Degree, are fully equipped to choose their next trajectory. They may opt to enter the workforce, transition into a standard two-year Postgraduate (PG) program at VNSGU or any other recognized institution, or utilize the university's flexible re-entry mechanism for advanced undergraduate study i.e. 4<sup>th</sup> year UG.

## Opting to "Pursue 4th Year UG" (Re-Entry Mechanism)

Students electing to pursue the advanced fourth year of study will seamlessly transition by taking formal admission into the 4th-Year UG Degree (Honours) or 4th-Year UG Degree (Honours with Research).

It is crucial to clarify that **there is no administrative Convocation Restriction** tied to pursuing the 4th year. Because students are officially considered to have taken an exit upon completing the foundational three-year degree program, they are fully entitled to receive their standard 3-year Bachelor's Degree at the forth coming convocation. Their admission into the advanced fourth year is officially classified as a "re-entry" into the academic system, honoring the true spirit of the Multiple Entry and Exit System (MEES).

## Eligibility Criteria and Program Tracks

Admission to the fourth-year UG Degree (Honours) and UG Degree (Honours with Research) tracks is governed by strict eligibility parameters. Specifically, admission is exclusively restricted to students who were initially enrolled at Veer Narmad South Gujarat University during the Academic Year 2023-2024. Candidates must have successfully completed all requirements of their 6th Semester at VNSGU to be considered eligible. Please note that inter-university transfers for direct admission into the fourth year are strictly prohibited. Furthermore, eligible candidates are required to continue within their currently enrolled academic program and must firmly retain their existing major discipline without alteration.

For students who explicitly select to pursue the 4th year, the university's ERP system will automatically filter and display the available academic tracks on their student dashboard. This track allocation is determined strictly on the basis of the student's finalized 6th-semester Cumulative Grade Point Average (CGPA):

- **Standard Track (Fourth-Year Honours):** Students who have successfully passed the foundational three-year program but have secured a CGPA below 7.5 will only be presented with a single academic option on their dashboard: the Fourth-Year Honours track.
- **Research Track (Fourth-Year Honours AND Honours with Research):** Students who have demonstrated consistent academic excellence by securing a CGPA of 7.5 or higher will be granted access to a broader selection. These eligible candidates will be presented with both options: the standard Fourth-Year Honours track AND the specialized Fourth-Year Honours with Research track.

## Curriculum and Credit Framework

In strict alignment with the University Grants Commission (UGC) Curriculum and Credit Framework for Undergraduate Programmes, the fourth year of study (encompassing Semesters 7 and 8) corresponds to the National Credit Framework (NCrF) Level 6.0. This advanced phase is meticulously designed to impart specialized disciplinary knowledge and cultivate high-level research competencies. Students will progress through one of the following two structured pathways:

- **UG Degree (Honours):** This pathway is structured to provide an in-depth, rigorous exploration of the student's major discipline. The curriculum predominantly focuses on Advanced Disciplinary Courses, Discipline-Specific Electives (DSE), and with On Job Training (OJT). OJT focuses on advanced skill development, discipline-specific hands-on training, problem-solving ability, workplace ethics, teamwork, documentation practices and outcome-based learning through continuous professional engagement, thereby preparing students for employment, entrepreneurship, research and higher professional responsibilities. Student can opt major courses in lieu of OJT. It is purposefully designed to equip students with the comprehensive academic foundation required for specialized professional roles or further postgraduate coursework.
- **UG Degree (Honours with Research):** Designed to cultivate rigorous analytical and research capabilities, this track serves as a foundational stepping stone for academic research or doctoral studies. In addition to completing advanced disciplinary coursework, students are strictly mandated to undertake a comprehensive Research Methodology course. Furthermore, a significant component of the 8th semester is dedicated to executing a formal Research Project or Dissertation under the direct supervision and guidance of a university-recognized faculty guide.

## Institutional Seat Matrix & Fee Structure

The distribution of seats for the 4th-year programs is systematically mapped across affiliated colleges and university departments. The intake capacity is governed by the official seat matrix, adhering to the statutory reservation roster mandated by the Government of Gujarat.

*Note: Admission to the Honours with Research track is strictly subject to the availability of recognized research guides and adequate laboratory/library infrastructure at the chosen institution.*

B.Sc.-Computer Science						12540	3000
B.Sc.-Data Science						18810	3000
B.Sc.-Medical Laboratory Technology						31350	2500

**Other Fees to be charged for 7th & 8th semester onwards of Honours & Honours with Research Programme**

Sr.No.	Head of Fees	Fees
1	Student Welfare Activity Fee	400/-
2	Book & Equipment Fee	400/-
3	Student Union Fee	100/-
4	Amenities Fee	450/-
5	Campus Development Fee	150/-
6	Internal Exam Fee	175/-
7	University Development Fee	60/-
8	University Sports & Cultural Activity Fee	25/-
9	University Sports Complex Fee	25/-
<b>Total</b>		<b>1785/-</b>

Female students are exempted from paying tuition fees for grant-in-aid Honours & Honours with research programs offered in affiliated colleges and University departments.

## Centralized Application and Choice-Filling Procedure

To guarantee an equitable and transparent allocation of students into the 4th-year programs, the entire admission workflow will be centrally administered and strictly governed through the university's ERP system.

1. **College Selection:** Eligible students are required to select a pool of colleges or departments where they intend to pursue their fourth year of study. A crucial parameter of this process is that students will exclusively select their "choices" of institutions; they will not be required or permitted to rank these selections by "preference".
2. **Merit List Generation:** Following the choice-filling window, the university's ERP system will algorithmically process the submitted selections. The system will automatically generate objective, college-wise merit lists based entirely on the students' 6th-semester Cumulative Grade Point Averages (CGPAs).
3. **Institutional Dashboards:** Upon generation, these finalized merit lists will be digitally pushed directly to the secure administrative logins of the respective affiliated colleges and university departments.
4. **Admission Rounds:** The University administration will publish a comprehensive, centralized admission schedule and will integrate the official seat matrix—which includes all statutory reservation quotas—directly into the ERP system. Colleges and departments will then initiate formal admission rounds in strict adherence to this centralized schedule, allotting seats exclusively based on the ERP-generated merit lists and prevailing reservation norms.
5. **Finalization:** Upon the conclusion of the stipulated admission rounds, the University will centrally lock the digital portals to conclude the process. Subsequently, successfully admitted students will officially reflect on their respective college or department dashboards, and the allotted institution will reflect on the student's personal dashboard as they commence their 7th-semester academic coursework.

## General Rules, Discipline, and Examinations

- **Examination and Evaluation Scheme:** The academic evaluation and instructional schedule for the 7th and 8th semesters will strictly adhere to the standard university academic calendar. Furthermore, continuous assessment and final semester-end grading will seamlessly continue to utilize the standard 10-point grading scale mandated by the University Grants Commission (UGC).
- **Anti-Ragging Mandate:** Veer Narmad South Gujarat University maintains an uncompromising, zero-tolerance policy regarding ragging in any form. In strict compliance with institutional and regulatory guidelines, all students admitted to the 4th year are required to submit a formal online Anti-Ragging Undertaking as a mandatory condition of their continued enrollment.
- **Academic and Research Integrity:** Students are expected to uphold the absolute highest standards of academic honesty. Any instances of plagiarism, data fabrication, or other unethical practices—particularly concerning the mandatory 8th-semester research project or dissertation within the Honours with Research track—will be met with severe disciplinary action. Such violations will lead to immediate penalization, which may include the permanent withholding of the four-year degree credential.
