6 Read the following passage carefully and answer the 5
question given below it :

The cinema is an outstanding wonder of this modern age. Apart from the great pleasure it gives us as a means of entertainment, it is in many ways an education in it self, and no regular patron of the cinema can ever be called illiterate.

The cinema is also a very valuable asset to educationists in imparting knowledge. The film companies from time to time produce historical pictures, and these are pictures of great assistance to the teacher of history. A couple of hours spent in the company of historical personages dressed in the proper dress of the period can teach us far more than we can learn from a whole week study of historical textbook. Even some of shakespeare's dramas have been filmed, and we thereby gain a much better idea of the play than would be possible from a casual reading of it.

But of far greater importance is the use of the film in the teaching of science and industry. There are educational film companies, which devote their time to the filming of the habits and customs of animals, insects, fish, germs, and numerous other branches of scientific life. such pictures are intensely interesting and are a very great help in the cause of education.

Questions :

- (i) What does the writer say about the cinema ?
- (ii) How is the cinema a valuable asset to educationists ?
- (iii) How can the cinema be used in teaching science and industry ?
- (iv) What do some educational film companies do ?
- (v) Suggest a suitable title.
