Success in life largely depends on good health. Therefore, keep your body fit by cleanliness, fresh air, regular habits, suitable recreation. Make yourself strong to play the game and go it in every sense of the world. Avoid everything that would sap your health. Smoking in your youth stunts the body and clouds the brain. Be temperate in all things and beware of drink. It is the deadly enemy of health and efficiency. Above all, your character is a priceless possession; therefore, keep it untarnished. Be truthful in all things, courteous and considerate to everybody, fair to your rivals, kind and helpful to all who are weak and suffering and do not be afraid to have the courage to stand for what is good, pure, and noble. Avoid gambling in every form; it is a mean game trying to gain something for nothing and at other peoples expense. Make a provision for times in your leisure hours, avoid more idling, fill such hours with interesting hobbies, good books, and with companionship and association of culture to exercise over you an influence for good. To a large extent, you will be known by the company you keep.
