General

The Elective taken in each semester has to be mentioned in the result. Every semester the elective will be changed.

In case of ATKT, students acquiring less than 45% marks in Internals will be given a chance of improving their internal marks by the method of resubmission or tests.

For VI, VIII & IX Semester:

If a student gets ATKT in Design Studio-VI, he/she has to clear Design Studio-VI ATKT in the next semester. The student will have to hold regular discussions with teachers in the next semester to clear the ATKT as Design Studio is mainly process based. This means that either the student will have to do office training in the city itself, or will have to commute for regular discussions during office training.
