કુલસચિવ UoM

પ્રતિ,

- ૧) યુનિવર્સિટી સંલગ્ન વિજ્ઞાન વિદ્યાશાખા હેઠળની તમામ કોલેજોનાં આચાર્યશ્રીઓ.
.....આપશ્રીની કોલેજના સંબંધિત શિક્ષકોને જાણ કરી અમલ કરવા સારૂ.
- ૨) ડીનશ્રી, વિજ્ઞાન વિદ્યાશાખા.
- ૩) પરીક્ષા નિયામકશ્રી, પરીક્ષા વિભાગ, વીર નર્મદ દ. ગુ. યુનિવર્સિટી, સુરત.
.....તરફ જાણ તેમજ અમલ સારૂ.

CS11-209
1201-74

Internship:

Given that the duration of the internship is decided to be 120hrs by the University, a student needs to spend at least 15 (8hrs x 15 days) or 20 (6hrs x 20 days) working days for this. Now we need to go through the possible institutions/industries/organizations which will allow students to go there and learn/work there in order to complete their internship.

Some categories of institutions and examples which are providing internships to masters and/or graduation students or potential institutions that can be approached by the students for internship.

1: Govt./Private Research Institutions or Institutions of National Importance or Advanced Institutions for Higher Academics

These are some of the best institutions of the country and many of them provide summer internships to students. Even faculties (PIs) of these institutions are having many research projects going on with them so each research lab or faculty can take one or two interns to work in their projects for short durations.

However, these institutions are highly ranked among peers and so many candidates will be applying there so competition will be high but I suggest that some intelligent students from each class (around 1-2) can try to join internship in some of the following institutions as per their research/subject interest:

- Division of Biological Sciences at the Indian Institute of Sciences (IISc), Bengaluru
- Biological Science department of all the IISERs (These are considered as IITs for basic sciences). Currently there are seven IISERs located at Pune, Bhopal, Mohali, Kolkata, Berhampur, Tirupati, Thiruvananthapuram
- Wildlife Institute of India (WII), Dehradun
- National Centre for Biological Sciences (NCBS), Bengaluru
- National Forensic Science University (NFSU), Gandhinagar
- CSIR labs working in the field of Biological Sciences and related subjects (some examples are CCMB, Hyderabad; CSMCRI, Bhavnagar; IGIB, Delhi; NIO, Goa).

~~19/4/25~~
19/4/25

2: Private Industries and Research Labs in the vicinity

A major chunk of students will try to find some facility that they may approach for internship in their vicinity (to avoid the burden of staying outside for the period) and fortunately, South Gujarat has a strong industrial base, from which students can find some suitable avenues.

- Private industries and clinical research institutions like, Meril Life Sciences, Jai Research Foundation, Gufic Biosciences, etc.
- High end labs working in the field of genetics and cell biology can be a good venue (SN Gene lab, Genexplore, Gene Care)
- Labs working on Toxicology, Histochem and clinical research

3: Zoos and Natural History Museums

Zoos and Natural History Museums are a good avenue for a zoology student for internship.

- In zoos, students can learn about captive species management, breeding programs for threatened species and behaviour of animals. Zoos, in our vicinity are:
 - Sarthana Zoo, Surat
 - Sayaji Baug Zoo, Vadodara (MSU students have often conducted behavioural studies at this zoo for their dissertation)
- Natural History Museums are a good venue to study specimen curation, historical biology and classical taxonomy. Two such museums in our vicinity are:
 - Bombay Natural History Society (BNHS), Mumbai
 - Nat.Hist. Department of Baroda Museum, Vadodara

4: Non Govt Organizations (NGOs) and Environmental Consultancies

There are so many NGOs working in the field of biodiversity conservation, however, very few of them have some research projects in which, some students can join for internships. Some decent NGOs in Gujarat are:

- Voluntary Nature Conservancy (VNC), Vidyanagar
- WCB Research Foundation, Patan

~~10/5/25~~
10/5/25

Many consultancy firms working in the environmental sectors regularly do the environmental impact assessments (EIAs), they need volunteers/interns for fieldwork, so students may consider them as well.

5: Central, State and Private Universities and Institutions with Research Projects: They can also accommodate some students in their on-going research and lab work.

- Institutions: GSBTM, Gandhinagar
- Some Decent Private Universities in Gujarat: UTU, Bardoli; Parul Uni., Baroda; Ahmedabad Uni., Ahmedabad; Navrachana Uni., Vadodara
