યુનિવર્સિટીના વાણિજ્ય વિદ્યાશાખા હેઠળના તમામ શૈક્ષણિક વિભાગોના વડાશ્રીઓ અને યુનિવર્સિટી સંલગ્ન વાણિજ્ય વિદ્યાશાખા હેઠળની તમામ કોલેજોનાં આચાર્યશ્રીઓને જણાવવાનું કે, NEP-2020 અંતર્ગત શૈક્ષણિક વર્ષ ૨૦૨૬-૨૭ થી અમલમાં આવનાર B.Com.Statistics (Honours) Sem.-7 & 8 Major નો આંકડાશાસ્ત્ર વિષયની અભ્યાસ સમિતિની તા. ૧૮/૦૮/૨૦૨૫ની સભાના ઠરાવ ક્રમાંક:૦૪થી નિમણૂક કરેલ પેટાસમિતિ દ્વારા તૈયાર કરવામાં આવેલ અભ્યાસક્રમ આંકડાશાસ્ત્ર વિષયની અભ્યાસ સમિતિના ચેરમેનશ્રીએ અભ્યાસ સમિતિવતી મંજૂર કરી વાણિજ્ય વિદ્યાશાખાને કરેલ ભલામણ વાણિજ્ય વિદ્યાશાખાની તા.૦૮/૦૬/૨૦૨૬ ની સભાના ઠરાવ ક્રમાંક:૦૫ થી મંજૂર કરવા એકેડેમિક કાઉન્સિલને કરેલ ભલામણ એકેડેમિક કાઉન્સિલની તા. ૧૮/૦૬/૨૦૨૬ ની સભાના ઠરાવ ક્રમાંક : ૩૧ થી મંજૂર કરેલ છે. જેનો અમલ કરવા આથી જાણ કરવામાં આવે છે.

બિડાણ: ઉપર મુજબ

ક્રમાંક:ઓથો./પરિપત્ર/૧૩૭૨૬/૨૦૨૬

તા.૨૩/૦૬/૨૦૨૬

કુલસચિવ

પ્રતિ,

(૧) યુનિવર્સિટીના વાણિજ્ય વિદ્યાશાખા હેઠળના તમામ શૈક્ષણિક વિભાગોના વડાશ્રીઓ.

(૨) યુનિવર્સિટી સંલગ્ન વાણિજ્ય વિદ્યાશાખા હેઠળની તમામ કોલેજોનાં આચાર્યશ્રીઓ.

... આપશ્રીના વિભાગ/કોલેજના સંબંધિત શિક્ષકો/વિદ્યાર્થીઓને જાણ કરી અમલ કરવા સારું.

(૩) અધ્યક્ષશ્રી, વાણિજ્ય વિદ્યાશાખા.

(૪) પરીક્ષા નિયામકશ્રી, પરીક્ષા વિભાગ, વીર નર્મદ દ. ગુ. યુનિવર્સિટી, સુરત.

.....તરફ જાણ તેમજ અમલ સારું.

VEER NARMAD SOUTH GUJARAT UNIVERSITY, SURAT

B.COM. HONOURS SYLLABUS

Sem -VII and Sem-VIII

DEPARTMENT OF STATISTICS

PROGRAM TITLE	Bachelor of Commerce (Honours)
Name of Program	B. Com (Honours) – Advanced Statistics
Program Abbreviation	B. Com (Hons.)
Duration	4 Year
Eligibility Criteria	12 th pass
Pre-requisite	<p>Pre-requisite for this Learning Program</p> <ul style="list-style-type: none"> ➤ Students should possess a basic understanding of Statistics and Mathematics at the higher secondary (HSC) or undergraduate level. ➤ Familiarity with fundamental statistical concepts such as averages, dispersion, probability, and simple data interpretation is recommended. ➤ Ability to understand and work with numerical data, graphs, and basic algebraic expressions. ➤ Basic knowledge of computer applications, especially spreadsheets (Excel), is desirable for statistical analysis. ➤ An inclination toward analytical thinking, logical reasoning, and quantitative problem-solving will support learning effectiveness.
Medium of Instruction	English / Gujarati (as per institutional provision)
Objective of Program	<ul style="list-style-type: none"> ➤ To develop strong theoretical foundations in probability, statistical distributions, design of experiments, actuarial science, forecasting methods, and operations research, enabling students to understand and analyze complex quantitative problems. ➤ To build analytical and computational skills using modern statistical tools, software, and mathematical models, preparing students to handle real-life data in business, finance, economics, agriculture, and industry. ➤ To promote data-driven decision-making by training students to collect, organize, analyze, interpret, and communicate quantitative data with accuracy, clarity, and ethical responsibility. ➤ To enhance research capabilities through exposure to statistical modeling, hypothesis testing, experimental designs, simulation techniques, and advanced analytical methods relevant for higher studies and professional careers. ➤ To prepare competent professionals who can apply statistical reasoning and problem-solving skills in various fields such as banking, insurance, analytics, operations management, policymaking, and academic research.
Program Outcome (PO)	<p>After completion of the B. Com (Honours) – Advanced Statistics program, students will be able to:</p> <p>PO1: Disciplinary Knowledge Acquire comprehensive knowledge of statistical concepts, mathematical methods, business applications, operations research, actuarial science, experimental design, and economic analysis.</p> <p>PO2: Critical Thinking and Analytical Reasoning Develop the ability to think logically, critically, and analytically for solving quantitative, statistical, and business-related problems.</p> <p>PO3: Problem Solving Ability Apply statistical tools, models, and techniques to formulate, analyze, and solve real-life problems in commerce, economics, industry, research, and public administration.</p> <p>PO4: Statistical and Computational Skills Use statistical methods, mathematical reasoning, and appropriate computational tools for data analysis, interpretation, forecasting, optimization, and decision-making.</p> <p>PO5: Research Aptitude Develop the ability to design studies, collect data, analyze results, interpret findings, and prepare reports for academic, social, industrial, and business research.</p> <p>PO6: Communication Skills</p>

	<p>Communicate statistical ideas, quantitative findings, business interpretations, and analytical conclusions effectively in oral and written form.</p> <p>PO7: Ethical and Professional Responsibility Understand ethical practices in data handling, research work, business analysis, insurance, and decision-making with honesty, responsibility, and professional integrity.</p> <p>PO8: Teamwork and Leadership Work effectively both independently and in teams, and demonstrate leadership in project work, research assignments, data-based decision-making, and organizational tasks.</p> <p>PO9: Employability and Entrepreneurial Skills Develop employability, professional competence, and entrepreneurial skills relevant to statistics, business analytics, insurance, finance, operations research, and data-driven sectors.</p> <p>PO10: Lifelong Learning Recognize the need for continuous learning and skill upgradation in statistical methods, business applications, technology, and interdisciplinary knowledge.</p>																																																																													
<p>Program Specific Outcomes (PSO)</p>	<p>After completing the program, students will be able to:</p> <p>PSO1: Statistical Foundations Understand and apply the core concepts of probability, distributions, sampling theory, statistical inference, and mathematical statistics.</p> <p>PSO2: Data Analysis and Interpretation Analyze, interpret, and present quantitative data using appropriate statistical tools for business, economics, commerce, and social science applications.</p> <p>PSO3: Experimental and Research Applications Design, conduct, and analyze experiments and surveys using suitable statistical techniques for research and practical problem solving.</p> <p>PSO4: Operations Research and Optimization Apply operations research methods such as linear programming, game theory, sequencing, inventory control, and queuing models to optimize decision-making in business and industry.</p> <p>PSO5: Financial, Economic, and Actuarial Applications Use statistical methods in actuarial science, business forecasting, economic analysis, insurance, finance, and risk-related decision-making.</p> <p>PSO6: Practical and Professional Readiness Demonstrate practical statistical skills, computational ability, report-writing competence, and professional readiness for higher studies, research, competitive exams, and employment.</p>																																																																													
<p>Mapping between POs and PSOs</p>	<table border="1"> <thead> <tr> <th data-bbox="646 1902 781 1993">PSOs / POs</th> <th data-bbox="781 1902 891 1993">PO1</th> <th data-bbox="891 1902 1000 1993">PO2</th> <th data-bbox="1000 1902 1109 1993">PO3</th> <th data-bbox="1109 1902 1218 1993">PO4</th> <th data-bbox="1218 1902 1327 1993">PO5</th> <th data-bbox="1327 1902 1437 1993">PO6</th> <th data-bbox="1437 1902 1546 1993">PO7</th> <th data-bbox="1546 1902 1655 1993">PO8</th> <th data-bbox="1655 1902 1764 1993">PO9</th> <th data-bbox="1764 1902 1873 1993">PO10</th> </tr> </thead> <tbody> <tr> <td data-bbox="646 1993 781 2050">PSO1</td> <td data-bbox="781 1993 891 2050">✓</td> <td data-bbox="891 1993 1000 2050">✓</td> <td data-bbox="1000 1993 1109 2050">✓</td> <td data-bbox="1109 1993 1218 2050">✓</td> <td data-bbox="1218 1993 1327 2050">✓</td> <td data-bbox="1327 1993 1437 2050"></td> <td data-bbox="1437 1993 1546 2050"></td> <td data-bbox="1546 1993 1655 2050"></td> <td data-bbox="1655 1993 1764 2050">✓</td> <td data-bbox="1764 1993 1873 2050">✓</td> </tr> <tr> <td data-bbox="646 2050 781 2107">PSO2</td> <td data-bbox="781 2050 891 2107">✓</td> <td data-bbox="891 2050 1000 2107">✓</td> <td data-bbox="1000 2050 1109 2107">✓</td> <td data-bbox="1109 2050 1218 2107">✓</td> <td data-bbox="1218 2050 1327 2107">✓</td> <td data-bbox="1327 2050 1437 2107">✓</td> <td data-bbox="1437 2050 1546 2107">✓</td> <td data-bbox="1546 2050 1655 2107"></td> <td data-bbox="1655 2050 1764 2107">✓</td> <td data-bbox="1764 2050 1873 2107">✓</td> </tr> <tr> <td data-bbox="646 2107 781 2164">PSO3</td> <td data-bbox="781 2107 891 2164">✓</td> <td data-bbox="891 2107 1000 2164">✓</td> <td data-bbox="1000 2107 1109 2164">✓</td> <td data-bbox="1109 2107 1218 2164">✓</td> <td data-bbox="1218 2107 1327 2164">✓</td> <td data-bbox="1327 2107 1437 2164">✓</td> <td data-bbox="1437 2107 1546 2164">✓</td> <td data-bbox="1546 2107 1655 2164">✓</td> <td data-bbox="1655 2107 1764 2164">✓</td> <td data-bbox="1764 2107 1873 2164">✓</td> </tr> <tr> <td data-bbox="646 2164 781 2221">PSO4</td> <td data-bbox="781 2164 891 2221">✓</td> <td data-bbox="891 2164 1000 2221">✓</td> <td data-bbox="1000 2164 1109 2221">✓</td> <td data-bbox="1109 2164 1218 2221">✓</td> <td data-bbox="1218 2164 1327 2221"></td> <td data-bbox="1327 2164 1437 2221"></td> <td data-bbox="1437 2164 1546 2221"></td> <td data-bbox="1546 2164 1655 2221">✓</td> <td data-bbox="1655 2164 1764 2221">✓</td> <td data-bbox="1764 2164 1873 2221">✓</td> </tr> <tr> <td data-bbox="646 2221 781 2279">PSO5</td> <td data-bbox="781 2221 891 2279">✓</td> <td data-bbox="891 2221 1000 2279">✓</td> <td data-bbox="1000 2221 1109 2279">✓</td> <td data-bbox="1109 2221 1218 2279">✓</td> <td data-bbox="1218 2221 1327 2279">✓</td> <td data-bbox="1327 2221 1437 2279">✓</td> <td data-bbox="1437 2221 1546 2279">✓</td> <td data-bbox="1546 2221 1655 2279"></td> <td data-bbox="1655 2221 1764 2279">✓</td> <td data-bbox="1764 2221 1873 2279">✓</td> </tr> <tr> <td data-bbox="646 2279 781 2336">PSO6</td> <td data-bbox="781 2279 891 2336">✓</td> <td data-bbox="891 2279 1000 2336">✓</td> <td data-bbox="1000 2279 1109 2336">✓</td> <td data-bbox="1109 2279 1218 2336">✓</td> <td data-bbox="1218 2279 1327 2336">✓</td> <td data-bbox="1327 2279 1437 2336">✓</td> <td data-bbox="1437 2279 1546 2336">✓</td> <td data-bbox="1546 2279 1655 2336">✓</td> <td data-bbox="1655 2279 1764 2336">✓</td> <td data-bbox="1764 2279 1873 2336">✓</td> </tr> </tbody> </table>	PSOs / POs	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PSO1	✓	✓	✓	✓	✓				✓	✓	PSO2	✓	✓	✓	✓	✓	✓	✓		✓	✓	PSO3	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	PSO4	✓	✓	✓	✓				✓	✓	✓	PSO5	✓	✓	✓	✓	✓	✓	✓		✓	✓	PSO6	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

B.COM (Honours)

Semester -VII

Advanced Statistics – I : Design of Experiments (Major Paper – I) – Credit 4

As per NEP 2020

To be implemented from the Academic year 2026-27

Program Name	B. Com (Honours) – Advanced Statistics						
Semester	7						
NCrF Credit Level	6.0						
Course Type	Major						
Course Subtype							
Subject Type	Discipline Specific						
Course Code	MJSTC 709						
Course Level	400						
Course Title	Advanced Statistics – I : Design of Experiments						
Credit	Theory:	4	Practical:		Total:	4	
Effective From	Academic Year : 2026-27						
Course Outcomes	<p>On completion of the course, the students will be able to:</p> <p>CO1: Understand the fundamental concepts, principles, and importance of design of experiments in statistical analysis.</p> <p>CO2: Analyze Completely Randomized Design (CRD) and perform ANOVA for testing treatment effects.</p> <p>CO3: Apply Randomized Block Design (RBD) and Latin Square Design (LSD), including handling missing observations.</p> <p>CO4: Understand factorial experiments, main effects, interaction effects, and apply Yates' method.</p> <p>CO5: Apply experimental design techniques in agriculture, industry, and research problems.</p>

Advanced Statistics – III : Univariate Distributions - 1 (Major Paper – III) – Credit 4

As per NEP 2020

To be implemented from the Academic year 2026-27

Program Name	B. Com (Honours) – Advanced Statistics						
Semester	7						
NCrF Credit Level	6.0						
Course Type	Major						
Course Subtype							
Subject Type	Discipline Specific						
Course Code	MJSTC 711						
Course Level	400						
Course Title	Advanced Statistics – III : Univariate Distributions - 1						
Credit	Theory:	4	Practical:		Total:	4	
Effective From	Academic Year : 2026-27						
Course Outcomes	<p>On completion of the course, the students will be able to:</p> <p>CO1: Understand the concepts of random variables, probability functions, expectation, moments, and M.G.F.</p> <p>CO2: Derive and apply Binomial and Poisson distributions with their properties and applications.</p> <p>CO3: Understand and apply Negative Binomial distribution in discrete probability modeling.</p> <p>CO4: Analyze Normal distribution, standard normal distribution, and approximation methods.</p> <p>CO5: Apply univariate distributions in statistics, business, economics, and research problems.</p>
